- Worked with Git for version control and collaboration

SKILLS

Languages : Java | Kotlin

UI : Jetpack Compose | XML | Material 3

Architecture : MVVM | Clean Architecture | MVC | MVP

Async : Coroutines | Flow | RxJava

Networking : Retrofit | Ktor | OkHttp | WebSockets | Socket.IO

Database : SQLite | Room Database | DataStore

Firebase : Auth | Firestore | FCM | Crashlytics | Analytics

Tools : GitHub | Postman | JIRA | Trello | Figma | Adobe XD | Google Play Console

DI : Hilt | Dagger | Koin

Core : REST APIs | JSON | App Performance | Security | Modularization

PROJECTS

Cricket Live Score Apps

Cricket Fast Live Line [↗](#) | CricScore Line Guru Pro [↗](#) | Cric Line Pro - Live Line [↗](#) and more...

- Built scalable real-time cricket apps with live scores, commentary, and reels for millions of users.
- Optimized socket performance to handle high concurrent traffic during peak usage.
- Implemented a flexible multi-theme architecture with efficient real-time data updates.
- Managed Play Store deployment and integrated AdMob monetization.

WearOS Smart Watch Apps

Facekart (Watch) | Facekart (Mobile)

- Ensured secure and stable watch-mobile connectivity with reliable performance.
- Provided fully customizable watch face themes and styles for better personalization.
- Enabled one-tap watch face sync with real-time preview for smooth experience.
- Delivered seamless watch face installation on Wear OS devices without friction.

WannaBuy [↗](#)

- Built a requirement-driven buying system to match buyers with the most relevant products.
- Enabled instant connections between serious buyers and suitable sellers.
- Implemented real-time product matching based on user needs for faster discovery.

Visitor Book [↗](#)

- Developed a business card scanner and CRM app for exhibitions to capture and convert leads efficiently.
- Enabled OCR scanning, manual entry, auto-save to CRM, and export to XLS files.
- Integrated WhatsApp messaging, automated emails, and follow-up reminders.
- Built a secure offline solution with voice notes for sales teams and events.

Tam

- Supported live auctions with timed bidding and Buy-Now options for flexible purchasing.
- Integrated live video streaming to enable interactive and engaging product auctions.
- Built a real-time bidding engine with instant updates and outbid notifications.
- Implemented a secure payment system for safe transactions.
- Designed a bilingual (English/Arabic) user interface for better regional accessibility.

Other Apps

- Offline Currency Converter Pro
- Indian Rewards
- Indian Music Player
- Cineparc
- FCS Go, Student, Staff

EDUCATION

BACHELOR OF COMPUTER APPLICATIONS

- SPS COLLEGE ATKOT [↗](#)

AWARDS
